

## **EuroBalance**

Championing Work Life Balance Across Europe

Newsletter No 8. Autumn 2011

<http://www.eurobalance-wlb.eu>

Welcome to this edition of the **EuroBalance** newsletter.

Items to read in this edition are:

### **Eurobalance has completed its work successfully**

The Eurobalance project which started in October 2009, has successfully completed its work across Europe.

Designed to develop Europe-wide opportunities for work life balance, particularly in SMEs, the project took an innovative work life balance guide developed in the UK and transferred it, both linguistically and culturally, to other areas of Europe: the East (Poland), the North (Denmark), and the south (Italy and Greece).

### **The Eurobalance Forum is up and running**

To help to ensure that the mission of Eurobalance and the theme of promoting work life balance continues beyond the end of the project, as well as the WIKI Eurobalance Guide the project has initiated a new web-based forum that is open to anyone to use.

### **Wrexham Family Information Service builds on Eurobalance achievements**

Wrexham Family Information Service (WFIS) has been supporting employers and employees in Wales and the UK with up to date information on Work Life Balance legislation, research and good practice for over a decade.

### **Denmark is keeping the project going by collaborating with unions**

Danish partner VIFIN has been in talks with the local part one of the largest unions in Denmark, 3F, about using some of the materials developed in the Eurobalance project. In particular the eTraining package is likely to be useful for union members, who are interested in taking up the topic in their workplace. Through the package they will find information and guides to cascading work life balance.

### **Family Audit, an interesting and innovative practice from the Italian Region of Trent**

Following new contacts and collaboration arising from participation in the Eurobalance project, Italian partner Diciannove's connection with some NGOs and Foundations in the autonomous Region of Trent has pointed to the use of a new and innovative management tool relating to the potential impact work life balance.
